

Event Log Monitor Event IDs

The following are the categories and event IDs for current and discontinued Crown amps.

DCiN

Category	Event	Message	CtrlPort	Network
16	1	Line Voltage Below Limit		x
16	2	Line Voltage Above Limit		x
16	3	Power Supply Positive High Voltage Rail out of spec		x
16	4	Power Supply Negative High Voltage Rail out of spec		x
16	5	Power Supply Positive Low Voltage Rail out of spec		x
16	6	Power Supply Negative Low Voltage Rail out of spec		x
16	7	Power Supply Temperature Above Limit		x
16	8	Channel 1 Temperature Above Limit		x
16	9	Channel 2 Temperature Above Limit		x
16	10	Channel 3 Temperature Above Limit		x
16	11	Channel 4 Temperature Above Limit		x
16	12	Channel 5 Temperature Above Limit		x
16	13	Channel 6 Temperature Above Limit		x
16	14	Channel 7 Temperature Above Limit		x
16	15	Channel 8 Temperature Above Limit		x
16	16	Channel 1 Analog Input Clipped		x
16	17	Channel 2 Analog Input Clipped		x

16	18	Channel 3 Analog Input Clipped	x
16	19	Channel 4 Analog Input Clipped	x
16	20	Channel 5 Analog Input Clipped	x
16	21	Channel 6 Analog Input Clipped	x
16	22	Channel 7 Analog Input Clipped	x
16	23	Channel 8 Analog Input Clipped	x
